

Conformity declaration of Herrmans bicycle components

We hereby assure that our bicycle components fulfil the requirements to the EN-ISO 4210:2015 – Safety requirements for bicycles, and EN-ISO 8098:2014 – Safety requirements for bicycle for young children, and EN 15194:2017 – Cycles. Electrically power assisted cycles. EPAC Bicycles.

Products with electronic components fulfil the requirements of the RoHS II regulation.

Our products fulfil the requirements to the REACH legislation completely. Our role as mid-user is to inform our suppliers of intended use of their raw material, and to inform our customers of the contents of our products. We only use plastic raw materials produced by well-known suppliers. We do not produce or import any chemicals that require evaluation or registration.
